Decision Rendered in the Income Tax Cases.

THE SUPREME COURT DIVIDED.

The Law Valid, Except Regarding the Incomes Derived From Rents and From State and Municipal Bonds, on Which Points the Decisions Were That the Tax Was Unconstitutional.

WASHINGTON, April 9.—After almost a month of deliberation the United States supreme court rendered its decision yesterday in the income tax cases, deciding by a divided court the law to be valid, except the incomes derived from rents and from state and municipal bonds, on which points the decision was that the tax was unconstitutional.

There was only one member of the bench absent—Justice Jackson—who has not been able to attend upon the court since last fall, and who has not participated in the consideration of the case in any way. It is to his absence that the even division of the court on the majority of the propositions involved in the case is due. If he had been present, such a result would have been impossible, and the opinion would have included a decision of all the points involved instead of only the two in regard to incomes derived from rents and from state and municipal bonds.

Chief Justice Fuller read the decision of the court, carefully reviewing the case of Charles Pollock vs. the Farmers' Loan and Trust company and others. This was the first in order of the cases against the trust companies, and the conclusion reached in it applies also to the case of Hyde vs. the Continental Trust company, as the questions at issue are the same in both cases. The chief justice read it with great rapidity, but his voice was at all times clear and distinct, and the lawyers present who had familiarized themselves with the cases had little or no difficulty in following him. The delivery of the opinion consumed an hour's time, and all present gave the closest attention.

Justices Fields, White and Harlan then read dissenting opinions, each of which were very lengthy. The effect of all the opinions delivered is to show that the court was unanimous in the opinion that the law is unconstitutional as to municipal and state bonds, that Chief Justice Fuller and Justices Field, Gray, Brewer, Brown and Shiras held it to be invalid on incomes derived from rents and that Justices Harlan and White dissented from this opinion as to rents. It is impossible to state the exact division as to the validity of the other parts of the law further than was disclosed by the proceedings.

It appears quite clear that Chief Justice Fuller and Justices Harlan and White voted to sustain the other parts of the law, and the best opinion obtainable is that Justice Brown stood with them in this opinion, which would leave Justices Field, Gray, Brewer and Shiras as the opponents of the law as a whole.

TALK WITH TREASURY OFFICIALS.

They Are Dispirited Over the Supreme Court's Decision.

WASHINGTON, April 9.—Treasury officials are greatly dispirited over the supreme court's decision in the income tax case, and while admitting that they have no reliable date upon which to form an accurate estimate, they express the belief that the net result of the decision will be a loss of at least 50 per cent in the receipts from incomes. In some cities the loss will be far greater than this, notably in the city of Washington, where the loss is expected to reach 75 per cent. Washington, however, is exceptionally a renting city.

The proportion of rented houses in other cities of the country also is very large. In 1890, the rented houses in New York city was 94 per cent of the whole. In Boston it was 81 per cent; in Brooklyn, 81, in Cincinnati, 80, and in Jersey City, 81. In the other large cities the percentages range down to 36 at Rochester. In New York city there were 292,956 rented houses; in Philadelphia, 157,803; in Chicago, 156,566; in Brooklyn, 139,040. The total number of rented houses in the United States in 1890 was 1,120,487, which during the last five years has undoubtedly increased very materially. Dwellings, however, represent only a small part of the capital invested in buildings of every character which produce enormous rentals.

Comparatively little was expected from interest on state, county and municipal bonds, but the total loss, it is thought, will not fall short of \$15,000,000 or \$20,000,000 for the first year, and this loss is expected to increase rather than to diminish in succeeding years should the law remain unpealed. The loss of this revenue, however, is not the only cause of regret among the officials. The fact that the court was evenly divided on the main constitutional question, it is expected will result in almost endless litigation, thus very materially adding to the expense of collecting the tax.

Nevertheless, the internal revenue officials will proceed at once to prepare supplemental regulations to conform to yesterday's decision, and from now on until next Monday, when the time expires within which returns may be made, any returns in which incomes from rents or bonds are deducted, will be regarded as a full compliance with the law. Persons who have already made their returns and paid the tax will be advised of the change in the regulations, and as soon as possible the proportionate amounts of tax paid by each

on rents and bonds will be refunded to them under the general law, which authorizes the commissioner of internal revenue to refund taxes wrongfully collected.

Attorney General Olney was much surprised at that part of the decision which exempts rents under the income tax. As to the section of the act relating to bonds, the attorney general rather expected an adverse decision, but he regards the action of the court on the rent proposition as having been taken on technicalities, which he believes will not stand the test of time, and can not remain the permanent law of the land. On all other points the government, he believes, has no serious cause for complaint.

It is universally regretted that there was not a full bench to hear the case, and should Justice Jackson resign, there is very good reason to believe his successor would almost certainly be favorable to the law, in which event another test case very soon would be brought to the court for determination.

No Extra Session of Congress.

WASHINGTON, April 9.—The president on being asked whether in view of the supreme court on the income tax law, if an extra session of congress would be called, said that neither he nor the secretary of the treasury saw any necessity for such action, and unless that there was an unexpected change in conditions he had no idea that congress would meet again before the time appointed for its regular session.

COMBINED SAND AND SNOWSTORM.

Railroad Traffic Delayed in Western Kansas and Eastern Colorado.

KANSAS CITY, April 9.—The railroads have been battling with a new enemy in western Kansas and eastern Colorado since last Friday night. It was a combination sand and snowstorm, which swept over these regions, completely demoralizing train schedules and causing serious inconvenience and discomfort to travelers. The flakes of snow and particles of sand mingled and were driven across the prairies at a terrific speed by the gale, which blew incessantly for two days.

There was no loss of human life because the storm was not accompanied by the usual degree of cold, but many cattle and horses in western Kansas are reported to have been suffocated by the whirling clouds of sand. The sand and snow filled up the railroad cuts and buried the tracks. The snow melted and the sand settled down in a hard unyielding mass. Rotary snowplows and all the modern mechanical appliances for battling with snowdrifts were useless against this new enemy and the railroad companies were compelled to engage men with picks and shovels to remove the sand from the track.

The work was begun while the gale was still in progress, and the suffering of the workmen is said to have been intense. The particles of sand driven by a 60-mile-an-hour wind cut through the clothes of the men and perforated their skin like knives. A few hours' work was all that a man could stand without seeking shelter from the blinding, suffocating storm of sand.

On board the belated trains the condition of the traveler was not much better. Every door and window was kept closed to shut out the sand, yet it sifted in persistently until the floors of the cars were covered and everything was gritty to the touch. The air in the cars became hot and stifling and the passengers in several instances were compelled to go without food.

The first train since Friday to reach this city from Denver, except the Burlington trains, was the Missouri Pacific train, which arrived yesterday. The Burlington tracks were outside of the storm belt and its train schedule was not affected. The Santa Fe's Colorado train arrived last night after a protracted battle with sand and snowdrifts. The Union Pacific did not bring in a single train from Denver until 5 o'clock yesterday evening, when their overland reached Union depot. The train was held in Denver until a cut near Cedar Point, Kan., which was filled with a drift of sand for a distance of 25 feet, was cleaned out.

Reports as to loss of livestock have not reached here yet, owing to interruption of telegraph service. No direct wires have been secured to Denver, the telegraph companies being compelled to send their business for Denver and points beyond via the Northern route. There is every probability, however, that when reports begin to come in they will show that cattle on the ranges have suffered great hardships, and it is not improbable that considerable loss was sustained by the stockmen.

AN INHUMAN ACT.

Boy Beaten to Death With a Club by His Father.

CALDWELL, O., April 9.—News of a horrible murder has just been received here from the eastern part of the county, in which a son met death at the hands of his father. Sunday John Stevens, aged about 40 years, discovered that his son Frank was in possession of \$2, which he demanded.

The boy refused, and, it is said, his father then beat him to death over the head with a large club. Stevens has a temper that is uncontrollable. The boy's head was beaten to a jelly. Prosecuting Attorney Morris has gone to the scene. Stevens will be arrested as soon as found.

WANTED IN PENNSYLVANIA.

PORTLAND, Ind., April 9.—F. M. Neely was arrested near Pennville last evening and brought to this city to jail. Neely's arrest was made on advice from Clarion, Pa., where he is said to be wanted for forgery and embezzlement. He will be held to await the arrival of an officer with the necessary papers.

FIGHTING THE REBELS

Several More Skirmishes Take Place in Cuba.

THE GOVERNMENT TROOPS WIN.

This Report Comes Direct From Havana and Is Probably From a Government Source or Under the Government's Espionage—Some Startling News Reaches New York by Steamer.

HAVANA, April 9.—Brigadier General Castelli, who recently arrived here with reinforcements from Spain, has left Havana for the interior. In an omnibus, which arrived from San Francisco recently, the police captured 10 persons armed with revolvers and carrying a banner. They turned out to be an insurgent group which was going to unite with others for the purpose of making an attempt to capture Apoderate by assault.

Arms and ammunition have been found in the quarters occupied by a fireman in the barracks of the civil guard. Twelve of the latter have been committed to the Castle Cubana. The government troops have defeated a hundred rebels commanded by Holguin, one of the rebels being killed and four wounded.

General Salcedo defeated 200 rebels commanded by Munoz and Tamayo at a place called Moscovies. Eight of the rebels were killed. In the flight of the remainder they left their camp equipage and horses behind and retreated to the mountains in the direction of Cauco. On the government side one soldier was killed and three wounded.

The military judge has committed 10 persons charged with being implicated in the political disturbances.

General Salcedo has urgently requested the government to supply arms to volunteers who have offered their services in defense of the towns. A band of 180 rebels recently attacked the telegraph station at San Leandro de Cuba with the intention of destroying the telegraph line. A detachment of troops was sent to the scene of the disturbance and firing followed between the soldiers and the rebels. Among the killed is believed to be Rabi, the leader of the rebels. Rebels who have been crossing the plain of La Guira have been asking for medicine and surgical appliance with which to care for their wounded.

BRITISH SHIP RUN ASHORE.

Her Captain Murdered by a Party of Cubans on Board the Vessel.

NEW YORK, April 9.—The Ward line steamer City of Washington, which left Havana April 4, arrived in port yesterday. One of the officers stated that a rumor was current in Havana prior to the sailing of the steamer that a British ship carrying a band of insurgents had been run ashore off Cape Maysi and the captain had been murdered.

In detail, the story was that a Spanish gunboat had sailed from a Central American port with a party of Cubans who had chartered the vessel. A difficulty of some kind arose and the captain of the schooner refused to land them. The supposed rebels murdered him and ran the vessel ashore.

There was a number of Cubans on the City of Washington, but would not talk about the revolution.

CUBAN ADVISES TO SPAIN.

MADRID, April 9.—Advices from Cuba are to the effect that a Spanish column has reached Guanabaro without opposition. Other columns are pursuing four small rebel bands near Puerto Del Pandre, Holguin and Las Lunas. The forces of General Lachambre had a brush with some insurgents, routing them and killing their leader. The rebels sustained a heavy loss. Two of the Spanish forces were killed and a few wounded.

NELLIE BLY,

A Famous Newspaper Writer, Is to Wed an Aged Lawyer.

CHICAGO, April 9.—Rumor and speculation were rife at the Auditorium Sunday night, owing to the publication of the issuance of a marriage license to Robert Seaman and Elizabeth Cochrane. The reason was that two guests of the hotel bore those names. For two weeks Robert Seaman, a New York attorney, has been at the house, and one of the prominent guests, since her arrival in Chicago, is Elizabeth Cochrane, who is better known to the public as "Nellie Bly."

According to the records in the county clerk's office, Mr. Seaman's age is 68, and Miss Cochrane's is specified as "legal." Mr. Seaman left for New York late Sunday afternoon and Nellie Bly was not to be seen.

TOO MUCH SUGAR.

Over Four Times as Much Produced as Is Being Consumed.

WASHINGTON, April 9.—Sir Julian Pauncefote, the British ambassador, has furnished to the department of state a copy of a circular issued by the West India committee of London concerning sugar production. The ambassador explains that it is not to be regarded as an expression of opinion by his government but of the committee's views.

The circular calls attention to the fact that the sugar industry, beet, as well as cane, is passing through a crisis of the most serious description and expresses the hope that in attempting to provide a remedy the various governments should avoid taking any steps which may aggravate the crisis instead of relieving it.

It is shown that while the production is increasing at the rate of a million tons per annum, the consumption grows slowly at the rate of only 250,000 tons per annum. Naturally prices are depressed, and the bounty system is ascribed as the cause of this state of affairs.

Therefore it advises the entire abolition of the bounty and the stimulation of consumption by the reduction of the duties levied on sugar, which are excessive in Europe and prevent the people as a whole from using sugar.

WASHED OUT.

Switch Engine Wrecked by the Bursting of a Canal Bank.

AKRON, O., April 9.—High water caused a portion of the bank of the old Ohio and Pennsylvania canal, which for a long distance runs along a hillside, 12 feet high, in the northeast portion of the city, to give way early yesterday morning. The water rushed into the valley, carrying everything before it. Fortunately, no tenanted buildings came in its path, but the tracks of the valley railway and the Walsh Babcock electric railway were washed out.

Shortly afterward a valley switch engine crashed into the gully made by the torrent. Charles Konrad, engineer, was badly hurt, three ribs being broken. John Dailey, his fireman, escaped with several bruises and slight cuts.

The gates were closed in time to prevent the draining of the canal. The water found its exit in the Little Cuyahoga river.

WAS WELL KNOWN.

An Aged Lady Dies at Her Home in Ridgeville, Ind.

RIDGEVILLE, Ind., April 9.—Grandmother Elizabeth Wood, aged 94, is dead. She was a pioneer, having settled here when the country was a howling wilderness. She was the oldest member of the Woman's Relief Corps in the department of Indiana. She sent four sons to the late war. Two of them died from wounds and two returned wounded, while two other sons were massacred by the Sioux in Minnesota.

Her husband, Samuel Wood, was a soldier of the war of 1812, while his father was a soldier of the revolution.

SLOWLY STARVING.

Such Is Said to Be Lawrence Meehan's Condition.

WASHINGTON, Ind., April 9.—Lawrence Meehan, a bachelor, aged 61, living eight miles east of this city, is slowly starving himself to death. At the January term of court he was defeated in a suit by a man named Dickerson, and ever since the old gentleman has been brooding over the matter until his mind has become unbalanced.

Since March 1 he has steadily refused to eat anything and can now be termed a living skeleton. During this long time nothing but a little water has passed his lips.

Celebrated Case.

HUNTINGTON, W. Va., April 9.—A celebrated case has been docketed in the circuit court by Barrister Ed Doolittle that has been in litigation for 20 years, and which comes from Wayne county. There is scarcely a lawyer of prominence in this part of the state that has not been employed on one side or the other. Its title is Joseph Keyser against John Lockwood. When brought first it was tried by the old county court of Wayne.

After the Chicora's Wreckage.

LAPORTE, Ind., April 9.—The tug Tramp sailed from Michigan City yesterday to begin the search for the bodies and wreckage of the steamer Chicora. A Startling Announcement.

An English literary man who was on the verge of bringing out a book at the Pitt Press ordered his proofs to be sent to him at a house where he was engaged to dine out, intending to look them over in the half hour after dinner. The printer's boy however, was late in bringing them, and the gentlemen had already rejoined the ladies in the drawing room when the company was electrified by hearing the sonorous voice of the butler announcing, "The devil from the Pitt has come for Mr. Jones!"—San Francisco Argonaut.

GOOD NEWS.

Business Improving and Wages Going Up, and We're Living Under Democratic Laws, Too.

CLEVELAND, O., April 4.—A little more than a year ago the Globe iron-works made a cut of 10 per cent in wages.

Notices are posted in the works announcing a restoration to the old rate.

The Cleveland Shipbuilding Company has reached an agreement with its employes, and they are all back at work again. This summer will see a big improvement over the conditions that existed a year ago.

Cincinnati Post: "Word was received in Cincinnati Thursday morning that James Dolan & Co., of Philadelphia, the largest cloth-weaving firm in the United States, had voluntarily increased the wages of its employes 15 per cent. Since the concern has been in existence there never was a cut made in wages, although the time was reduced on one or two occasions. James Dolan, head of the firm, is President of the National Manufacturers' Association.

Lexington Gazette: "The advance in price which has taken place in the past five weeks is decidedly significant. Almost every important commodity is higher than it was at the close of February. Wheat, corn, cotton, pig iron, pork and petroleum have gone up in this period. So, too, have the shares of the leading roads. Prices for some of those articles and stocks are higher now than they were before in twelve months. Silver has advanced faster and farther than almost any other thing dealt in on the speculative exchanges. A few articles have either remained stationary in price or have fallen slightly, but the general drift is strongly in the upward direction, and promises to continue."

From the Journal of Finance, March 28: "Progress is sometimes best measured by comparisons. A glance backward is oftentimes a source of encouragement, an inspiration to new energy and a force that brings further development. There is small need to dwell on the change for the better that has come, as compared with the condition of affairs two short years ago. It is universally recognized. The era of timidity and distrust all along the business line has passed away. Our manifold manufacturing interests are finding ways for adapting their business to the new conditions. Hope is asserting itself, that which seemed an ogre to everybody has really proven only a shadow, and business men are making new ventures and planning on all sides for the investment of large amounts of fresh capital. With the stock of supplies reduced, with production down to a fair level, the renewed increased consumption is coming, and with it is coming also advancing prices for the products. These processes have been effective in "weeding out" much timber that was financially rotten; have emphasized once more the necessity and value of doing businesslike methods, and have placed our manufacturers and business men generally in a position to go ahead, assured of a comfortable and satisfactory return on their investments."

JAP SOLDIERS READ THE BIBLE.

Enormous Demand for the Good Book
Reported by Dr. Loomis.

NEW YORK, April 5.—The Board of Managers of the Bible Society held their regular monthly meeting at the Bible House, Astor Place and Third avenue, last night. The only report of special interest received was from the Rev. Dr. H. Loomis, the representative of the society in Japan. He reports an enormous demand for Bibles from soldiers in the Japanese army, officers as well as privates. His letter also stated that a large number of Christian chaplains are with the army by consent of the Japanese officials, and many converts are being made among the troops.

MISS PEARL THOMAS.

After a long and painful illness, Pearl Thomas, the only child of William and Annie Thomas, passed peacefully away at her home at Burtonville, Ky. She was born September 4th, 1880, and died March 22nd, 1895.

The deceased possessed a remarkably bright and winning disposition, being the joy of her father's heart and the comfort of her mother; and to know Pearl, was to love her. In the beginning of last fall she attended Hamilton College, Lexington, where she was quite a favorite with whom she came in contact, and was an exceptionally bright student, giving every promise of success, when disease laid its blighting hand upon her. Although everything she gradually grew worse, until at last her parents, who had been constantly at her bedside, deemed it advisable to remove her to her home, where like a beautiful flower nipped in the bud by the early frost, she passed away in the spring-time of youth.

Before departing this life she called to her bedside her father and mother and many of her friends, earnestly exhorting them to "be good, love the Lord, and I will be waiting and watching for you," especially urging her dear father to be sure and prepare to meet her in Heaven.

She remained conscious till the last, assuring her loved ones that she was not afraid to die, but welcomed death as a sweet release from her sufferings.

"When we see a precious blossom,
That we tended with such care,
Rudely taken from our bosom,
How our aching hearts despair!

But in that bright eternal city
Death can never, never come!
In his own good time He'll call us
From our rest to home, sweet home."

SAYS the Courier-Journal: "Tips on a probable decision of the Court of Appeals can only be given for what they are worth. It is said by the knowing ones at Frankfort that the decision in the bank-tax cases will be against the banks, and that there will be a divided court in the L. and N.C., O. and S. W. case."

THE WHEELMEN.

Contributions to the Fund to Enter-tain the State League at the Approaching Meeting.

Maysville's citizens don't seem to be fully awake to the fact that the approaching meeting of the State League of American Wheelmen will be a big affair.

Fully 300 'cyclers are expected here on the 14th and 15th of June to attend the annual session of the League, and the meeting of the wheelmen will no doubt draw large crowds from the surrounding country.

It is the intention of the Committee on Programme to arrange for fourteen races, seven each day, and there will be some lively contests for the prizes offered. Two of the races will be for the championship of Kentucky. The races will be held at the fair grounds, and it will be a novel sight to see from twenty-five to fifty fast wheelmen participating in these contests.

The races will occur in the afternoon and as an extra attraction the managers of the base ball association will arrange for a game of ball each forenoon on the days the wheelmen are here, to be played at the new park.

At the meeting at the Central Hotel last night there was a general discussion of the coming meeting and the arrangement of the programme. The Committee on Finance had not seen many citizens, but they reported the following contributions of cash and articles for prizes:

Central Hotel Co., \$50.
Hechinger & Co., suit of clothes, \$15.

LATEST FROM HONOLULU.
Advices Brought by the Steamer Peru
Dated March 30.

SAN FRANCISCO, April 9.—Advices from Honolulu, per steamer Peru, dated March 30, received, yesterday are as follows:

The most important event of the past week was a massmeeting of annexationists under the auspices of the American League. C. B. Wilson, the ex-queen's agent, and C. L. Hopkins, a so-called convert to the new annexation movement, were among the speakers. They advised the natives to favor annexation as the only remaining weapon to overthrow the present government. The natives were secretly warned to keep away from the meeting.

President Dole is expected to issue a proclamation summoning the legislature for May 1.

A special election for representative in the Fourth district has been called. The candidates are Deputy Attorney A. G. M. Robertson, Government, and Paul Neumann, Independent. The conservative element and the American Union party split on Robertson and Neumann may possibly be elected. The line, of course, of the military and the cabinet at a joint meeting have agreed on the desirability of obtaining a United States officer as colonel, the recent revolt showing a lack of military skill on the part of the officers, and the necessity for a trained leader.

The suppression of the rebellion is ascribed to the idiocy of the enemy rather than the skill of the government troops.

Murdered His Wife and Suicided.

VICKSBURG, Miss., April 9.—T. M. O'Kelley murdered his aged wife yesterday by repeated blows with a hatchet and afterward committed suicide. He had designed murdering his daughter also, but she escaped by jumping from a window. O'Kelley was 65 years old. He was a member of a prominent Louisiana family. He left a letter and some manuscript to a lawyer with the request that his sons be consulted in regard to making them public. O'Kelley was supposed to have been insane.

Ended in a Draw.

CHICAGO, April 9.—The eight-round contest between Dan Creedon and Henry Baker, which came off before the Triangle club last night, was declared a draw. Creedon had Baker groggy in the second round but was unable to put his man out. From the second round on honors were evenly divided. Creedon did most of the leading through the fight.

Seventeen Farmers Burned Out.

GUTHRIE, O. T., April 9.—In Pawnee county an unknown on horseback set fire to the dry prairie grass during a high wind and the country was devastated for many miles. Seventeen farmers lost everything they possessed, having hard work to save the lives of their families, and the village of Chilio was almost entirely destroyed.

Minister Drops Dead.

BLOOMINGTON, Ills., April 9.—Rev. E. S. Welkin, pastor of the First Baptist church, Lincoln, Ills., fell dead last night at the age of 72. He was chaplain of the Twenty-first Illinois regiment, Grant's first command, in the civil war, and was a brother of Justice Welkin of the Illinois supreme court.

Cincinnati Police Muddle Settled.

COLUMBUS, O., April 9.—Governor McKinley yesterday sustained the three police commissioners of Cincinnati who refused to vote for the removal of Lieutenant Heehean. The story runs thus: A committee of the Reform league asked Heehean to arrest certain persons who were giving a theatrical exhibition on Sunday. The lieutenant refused, stating he had been instructed by Mayor Caldwell to make such arrests at the conclusion of the performances and upon proper proceedings. The officer being sustained by three police commissioners, the league carried the case to the governor, who appoints police commissioners for Cincinnati. The league desired the dismissal of the officer.

Killed With a Stone.

PARKERSBURG, W. Va., April 9.—In an ugly altercation at the Beechwood mines between William Drake and John Ellis, a young man named E. D. Kisser, aged 18, interfered to prevent trouble, being related to Drake. At this Ellis became enraged and made an attack upon him with a razor, when Kisser, in alleged self-defense, threw a stone at Ellis, striking him on the temple, resulting in instant death. Kisser is in the Monongalia county jail.

Death of Mrs. Campbell.

MIDDLETOWN, O., April 9.—Mrs. Campbell breathed her last at just five minutes of 12 yesterday at noon, surrounded by her son, ex-Governor James E. Campbell, and his family. No death has caused so much sorrow in the city as the death of this noble woman. The city is draped in mourning. She did not fear death, for she said she was prepared to die. Her face will be missed, for she was seen almost every day upon the streets.

Delaware Loses Her Governor.

LAUREL, Del., April 9.—Governor Joshua R. Marvel died at 9:15 o'clock yesterday evening at his home in this place. Death was caused by a complication of Bright's disease, erysipelas and heart failure. At noon all hope was abandoned, and at 6 o'clock yesterday evening he became insensible, lingering in that condition until death came.

Expired Instantly.

HOPKINSVILLE, Ky., April 9.—While walking in the yard of his home, near Empire, in this county, Henry Brown suddenly put his hand to his side, and with the words, "I can't go any farther," he fell to the ground and instantly expired.

Roundhouse Burned.

ALBUQUERQUE, N. M., April 9.—The Atlantic and Pacific roundhouse and machine shops at Winslow, A. T., were burned early yesterday. Eight big locomotives were destroyed and the company's officials estimate the loss at \$100,000.

Will Scrub a Statue.

PHILADELPHIA, April 9.—George Washington's statue, which stands in front of Independence hall, is undergoing its first cleaning in seven years. So much of the dirt and dust of the Quaker City has adhered to it in that period that it has required the use of chisels and files in the hands of stone carvers to restore the marble to its original color. The task is now nearly completed and it is expected that the counterfeiter image of the immortal George will beam resplendent in a clean bib and tucker on Easter Sunday.

Griffin Knocked Out.

Miss Julia Stitt, who spent the winter with her aunt, Mrs. John Holliday, has gone to Henderson, Ky., and has engaged with the firm of "Goldstein Brothers" in the millinery business. She moves in the best society here and we think the society circles of Henderson will not regret receiving her in to their number. Her many friends wish her success, a long life full of happiness and devoid of care.
